PRO TIP FROM PRISCILLA

For those of you following my trilogy about my recent trip to Italy, this is the third and final installment of my experiences. In case you missed one, we will be posting my articles on our website, which is undergoing some major updates this month. Our goal is to make this tool more user-friendly for you as well as to keep updated and valuable information right at your fingertips. Keep an eye out for more information on this upgrade and how to access all of the information on my recent tour of Italy.

Without further adieu, this month's Pro Tip is all about fantastic, authentic and delicious Italian pasta!

Pasta Warms the Heart and Soul

One of the foods I really looked forward to trying in Italy was of course the pasta. We tried many different types but we keep going back for the same thing ... Bolognese!!! We couldn't get enough of it. I knew I wanted to expand our pasta choices when I got back to 900 and knew this dish had to be added. I asked Theresa, our Chef in Epping, to present me with a Bolognese dish. As happened many times in Italy, I was blown away! All I could think of was: *I don't have to wait to go to Italy again to get a true Bolognese dish.* Our new menu will be ready and available in the next two weeks. I would like to personally invite you to come in and enjoy our new pasta dishes for a taste of true Italian cooking.

If you liked these articles, be sure to visit the [Tour of Italy Facebook photo album](#) which shares so much of the glorious behind-the-scenes images of our great Italian experience.
