PRO TIP FROM PRISCILLA

Winter is a time for hibernation (just as the groundhog) and at 900 Degrees, we have used this hibernation time wisely! We've been busy creating a new restaurant menu, updated wine menus for both Epping and Manchester, planning website improvements, and so much more. We are excited to start showing you all what we've been up to for the past few months!

One of our New Year's Resolutions it to bring more fun and more contests your way. Both as a token of our appreciation for your continued support but also just because fun is, well FUN!

If you haven't liked us on Facebook, followed us on Twitter or followed us on Instagram, my Pro Tip for this month is that you may want to take a moment to do so. We will be posting promotions on one or all of these social media channels in the coming months so it will be worth your time to follow 900 Degrees on more than just one.

We look forward to another fun and delicious year with all of you!
