PRO TIP FROM PRISCILLA

Hope everyone had a wonderful April vacation week and are rested and rejuvenated for May!

It's a very busy time of year as outdoor sports and activities ramp up, flowers are blooming and yards need trimming. These are the best of days in New England - when sunshine becomes the currency of our every day life. When the sun is shining, every one is in a *good* mood!

Take some time to treat yourself, either for a ladies night out, a romantic evening for two, or bring the whole family for a meal full of memories. Leave the cooking and cleaning to our professional staff! Our latest authentic Italian dishes and creative cocktails are just what you need to enjoy this thing we call life.

Reheating 900 Degrees at Home

My tip this month is how to reheat your 900 Degrees pizzas at home. We recommend the following two procedures:

1. Place slices in a frying pan on the stove top for 3-4 minutes.
2. Bake in your oven for 3 minutes on high either on a pre-heated pizza stone or right on the oven rack. Watch the slices closely because they can burn easily.

Hope to see you on the deck!
